## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-29 are allowed.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: With respect to claim 1, the prior art failed to teach or render obvious the claimed first measuring means for measuring orientation of the beam leaving the scanning means, the second measuring means comprising a splitter plate for splitting the emitted beam and the beam backscattered by the scene, the focusing means comprise a convergent optical system combined with a divergent optical system for increasing the focal length of the convergent optical system, thus forming a teleobjective, the scanning means include at least one mirror placed in the path of the emitted and backscattered laser beams between the focusing means and the scene. The prior art teaches optical scanning system for monitoring surfaces and spaces as well as object recognition, including transmitting and receiving the reflected signals. However, none of the prior arts either singularly or in combination teaches the claimed system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
